

# KAMIL BARANOWSKI

## JUNIOR PYTHON DEVELOPER

I graduated from the AGH University of Science and Technology in Krakow, Poland. I have always been curious about programming. As a kid I tried my hand at simple coding by creating small projects such as a calculator.

About two years ago I decided to learn thoroughly how to code and started to study Python on my own. In October 2021 I applied for a Python Developer training programme in Coders Lab school. I finished it in April 2022. The training helped me put my education in order, and now I can call myself a Junior Python Developer. I am eager to learn more, as I enjoy coding very much!
